FULL CAST TURBO OUTLET PIPE for RB20/25

**New and improved
full-cast design!**

1.7 times larger volume than the STD!

New, improved and durable full-cast structure over the previous model of separate cast & welded design! Easier installation, better flowing and improved durability from the flexible designing capability of the full-cast structure. High main flow and smooth merge with the by-pass flow significantly reduces the unwanted backpressure.

SPEC

	MATERIAL	EXIT DIA.	FLANGE THK.	VOLUME	WEIGHT
TOMEI	SUS304	φ 72.0	12.0mm	1284cc	2.0kg
STD	STEEL	φ 60.0	13.8mm	750cc	2.25kg

*Numbers may slightly differ due to manual measurement.

One piece cast made without a welding. The new model achieved even larger internal volume, from 1050cc of the previous model to 1284cc on the new model that is 1.7 times larger than the factory stock. Bolt seating flange has also enlarged and improved for easier installation.

Designed from scratch for the best flowing efficiency.

Wide mouth design

Step-less connection with a 76.3mm front pipe.

Dumps the exhaust gas from the turbo straight onto the front pipe without reducing the flowing speed.

APPLICATION:
RB20DET:R31/R32/C32/C33/A31/Z31
RB25DET:R33/R34/C34/C35/WC34

JPY 72,000
